

p78 Mobile Hire (for Hiring Manager)

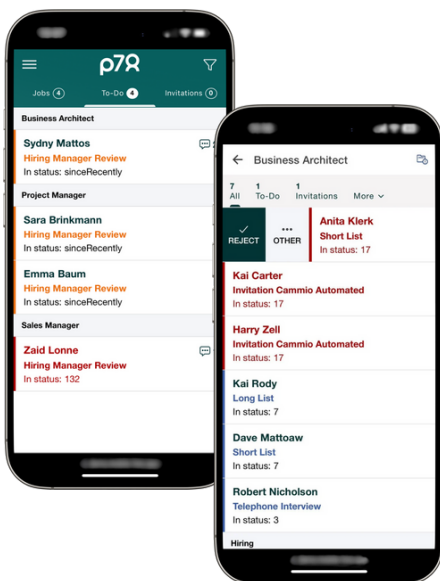

Fast and effective assessment of candidates for hiring managers

Streamline your recruitment process with our innovative p78 Mobile Hire app, designed for recruiters to assess candidates faster and more effectively. Get instant access to all relevant candidate information and documents and manage all your recruitment tasks effortlessly with our intuitive to-do list.

Pain Points in SAP SuccessFactors standard

- The SAP SuccessFactors standard only supports the approval of requisitions and the evaluation of applicants after the interview
- SAP SuccessFactors Recruiting is not fully responsive to be used on mobile devices

Your benefits

- App for recruiters to make decisions about candidates easily and efficiently
- All detailed information and documents about the candidate can be viewed directly by the employee seeker
- Hiring managers can easily keep track of all open to-dos
- Great support for HR managers in the candidate selection decision-making process
- Great support for recruiters (no individual reminders and mailings required)
- Shortening the time-to-hire, in particular the selection process (invitations to interview)
