

p78 Quick Apply

The short application app for candidates p78 Quick Apply enables job seekers, who increasingly want to apply quickly and on the go, to submit their candidate data in seconds without having to register beforehand.

- No registration and password entry required
- Automatic profile creation in the background
- p78 Quick Apply can also be used in parallel with the SAP standard (can be integrated individually, e.g. only for individual business units)
- Customer-specific corporate design and layout possible
- Support for job-specific questions from the job requirement
- Native cloud delivery model: automatic updates without additional costs
- No additional infrastructure required
- Simple multiple applications

With p78 Quick Apply, candidates are offered a quick, easy and mobile application option that effectively reduces application hurdles.

Demo Video

In the demo video we give you a full insight into the complete functions of p78 Quick Apply, especially the multiple applications.
